REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

The rejections or record have been overcome by applicant's amendments and remarks.

The 103(a) rejections based on Vikari have been overcome by applicant's arguments that Vikari does not teach controlling the amount of oxidant to produce a controlled quantity of aldehyde and carboxyl functionality.

The rejection of claims 19-21 under the first paragraph of 112 has been overcome by applicant's amendment to claim 19.

The rejection of claims 16 and 17 under the first paragraph of 112 has been overcome by applicant's arguments.

The rejections under the second paragraph of 112 have been overcome by suitable claim amendments.

The rejections of claims 18-21 over Rowland have been overcome by applicant's arguments that both claims 18 and 19 require a cellulose product that has controlled quantity of aldehyde and carboxyl functionality, which the product of Rowland does not possess.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
